(54)PROCESSING SYSTEM FOR SALES INFORMATION

(57)Abstract:

PURPOSE: To secure the contents of totalization obtained before change in a totalization file, etc. through a host device, by transmitting automatically said contents of totalization sent from a controller after a PLU table is changed.

CONSTITUTION: The POS terminals 1a~1n deliver the request telegrams for file maintenance in order to change the PLU table of a PLU file 2a. Thus a controller 2 retrieves the PLU file 2a and informs the old data on the article requiring the corresponding maintenance to the terminals 1a~1n. The terminals 1a~1n change the old data into the new data and sends it to the controller 2. The controller 2 performs the change and the additional registration of the file 2a based on said new data and sends a maintenance one telegram to the terminals 1a~1n as well as to a host device 5 respectively. Thus it is possible to grasp the contents of totalization at the host device side before change the PLU table.
